

Beneficiary Distribution Request

Use of this form to complete a beneficiary distribution, including a direct rollover due to death, will result in a reportable distribution under the tax ID of the beneficiary to the Internal Revenue Service and state tax authorities, as required. Beneficiary transfers to an inherited IRA will not result in a reportable distribution. This process can only support payments to the designated beneficiary of the account owner it cannot support payments to the beneficiary(ies) of the designated beneficiary. In the event the designated beneficiary post deceased the account owner without taking possession of the assets an Inherited IRA must be established.

For IRA beneficiary transfers involving multiple primary beneficiaries, inherited accounts must be established for each beneficiary using their name and Social Security Number. Only spousal beneficiaries may treat the IRA as their own and transfer it in their name.

This form should be used to request the total distribution of a beneficiary's portion of inherited assets only. **Do not use** this form to request required minimum distributions from the decedent's IRA account. **Do not use** this form to request 100% withholding of Federal and/or State Taxes. If requesting 100% withholding for your total allocation an Inherited IRA must be established.

Do not use this form if the beneficiary requires a POA or Guardian to act on their behalf an inherited IRA must be established.

**Tax Withholding Election (Note: Tax withholding does not apply to beneficiary transfers.)
(Form W-4R/OMB No. 1545-0074) Dept. of Treasury, Internal Revenue Service)**

Notice: Generally the distributions you receive from your IRA are subject to Federal income tax withholding unless you elect not to have Federal income tax withheld. You may elect not to have Federal income tax withheld on your IRA distribution by returning a signed and dated substitute Form W-4R (contained in Tax Withholding Election section of this distribution request form) to Pershing LLC or financial institution with the appropriate box checked. Unless you elect not to have Federal income tax withheld, or if you elect an alternative withholding amount, 10% will be withheld from your nonperiodic IRA distribution.

If you elect not to have Federal income tax withheld from your IRA distribution, or if you do not have enough Federal income tax withheld from your IRA distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient. You are responsible for determining and paying all Federal, and if applicable, state and local taxes on distributions from all IRAs you own. Please refer to <http://www.irs.gov/pub/irs-pdf/fw4r.pdf> for the marginal rate tables to help you determine the appropriate withholding rate.

If you are a U.S. citizen or resident alien receiving an IRA distribution that is delivered outside the United States or its possessions, withholding is required. That is, you may not waive withholding.

Nonresident aliens and foreign estates are generally subject to 30% federal tax withholding on nonperiodic IRA distributions if there is not a reduced tax treaty rate available. If you are seeking to claim a reduced tax treaty rate and you are a nonresident alien you may not use this form to receive an IRA distribution. Instead, you must open an Inherited IRA account and provide Pershing LLC with Form W-8BEN, Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding and Reporting (Individual), to establish foreign status and to claim a treaty rate (when applicable). A foreign person should refer to IRS Publication 515 and to Form W-8BEN for further information.

We may be required to withhold state income tax from your IRA distribution depending on your residency. Withholding rates are subject to change without notice. If no election is made, applicable state income tax may be withheld unless you indicate otherwise. For states with voluntary withholding, no withholding will apply if a percentage or dollar amount is not specified. You may waive state income tax withholding to the extent permitted by law. In some cases, you may elect not to have state income tax withheld.

Note: Taxes withheld from your IRA distribution in accordance with your instructions will not be reversed. Once a distribution has been processed in accordance with your instructions, you may not retroactively change your withholding election. For additional information regarding Federal and state tax withholding, contact your tax professional.

Statement of Federal Income Tax Withheld From Your IRA — By January 31 of next year, Pershing LLC will provide to you Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., showing the total amount of your IRA distributions and the total Federal and State income tax withheld during the year. If you are a foreign person who provided your requisite Tax Identification Number, Pershing LLC will provide to you Form 1042-S, Foreign Person's U.S. Source Income Subject to Withholding, by March 15 of next year.

The information below is from the IRS Form W-4R and is for informational purposes only. Please ensure you complete the appropriate distribution form section for federal income tax withholding.

General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments unless you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2023, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of

withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions: (a) qualifying “hardship” distributions, and (b) distributions required by federal law, such as required minimum distributions. See Pub. 505 for details. See also *Nonperiodic payments—10% withholding above*.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the

Federal and State Income Tax Withholding Instructions

Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$60,000 without the payment. Step 1: Because your total income without the payment, \$60,000, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$80,000, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2.

Example 2. You expect your total income to be \$42,500 without the payment. Step 1: Because your total income without the payment, \$42,500, is greater than \$24,850 but less than \$58,575, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$62,500, is greater than \$58,575 but less than \$109,225, the corresponding rate is 22%. The two rates differ. \$16,075 of the \$20,000 payment is in the lower bracket (\$58,575 less your total income of \$42,500 without the payment), and \$3,925 is in the higher bracket (\$20,000 less the \$16,075 that is in the lower bracket). Multiply \$16,075 by 12% to get \$1,929. Multiply \$3,925 by 22% to get \$863.50. The sum of these two amounts is \$2,792.50. This is the estimated tax on your payment. This amount corresponds to 14% of the \$20,000 payment (\$2,792.50 divided by \$20,000). Enter "14" on line 2.
